Dear Readers

Staff members are a great strength for any thrived or thriving institution because they play a significant role in the development of the students as well as institution. Dr. Raju Kolluri, Professor, Department of ECE was given an award for his outstanding dedication and exemplary service as a IEEE branch counselor at IEEE Guntur Zonal Section Congress, UDGMA 2023. Certificate of appreciation was given on 29.09.2023 in a Programme organized by VVIT, Guntur.

IBM skill build, faculty BUILDATHON award was given to Dr.A.V.Nageswara Rao Associate Professor, Department of ECE.

Dr. Y. Jaipal Reddy, Mr. P. Bhagya Raju and Mrs. G. Rajavali were given "Academic Excellence Award" on the occasion of Teacher's day 2023 celebrations organized by NARASARAOPETA ENGINEERING COLLEGE.

Department of Mechanical Engineering completed NBA visit from 08.09.2022 to 10.09.2023 and got succeed in achieving it.

Department of Mechanical Engineering organized 2days workshop on "Simulation of Basic Aerodynamics for RC plane design" from 06.10.2023 to 07.10.2023

Dr. Yagya Datta Dwivedi, Associate Professor & Deputy Head IARE Institute of Aeronautical Engineering, Hyderabad, was the Resource Person.

NEC Faculty are always busy like Bees.

Department of EEE organized a Two week Practical Training Programme on "Simulation of Power Electronics Applications using MATLAB" in association with Power Integrated Solutions, Trichy from 14.11.2023 to 26.11.2023

Department of EEE organized a Guest Lecture on "Emerging Trends in Electrical Engineering" on 14.12.2023. Sri Madan Mohan Konukuntla, Managing Director, HIEE, Hyderabad, was the Resource Person.

The Department of CSE (CS) organized a workshop on AWS Cloud computing in association with APSSDC from 31.02.2023 to 05.08.2023.

"Vruksho Rakshithi Rakshithaha" if we protect the trees they also protect us.

The NSS unit of our college planted the saplings at Village Secretariate, Yallamanda Village.

Vote is powerful than a bullet in democracy. NSS unit of our college organized Voter Registration Process with coordination of RDO Office, Narasaraopet on 12.07.2023

NEC always stresses the need of alround development. Along with studies co-curricular activities are given importance.

National Sports Day was celebrated on 29.08.2023 Sri K.V.Mahesh, DSP Narasaraopet was the Chief Guest. Like this NEC is moving forward with so many achievements.

Principal's Desk

It is a matter of great pride and satisfaction to bring out the News Letter, 'NEWS WAVES' released for the period July-December 2023. The goal of the news Letter is to give updated information related to Narasaraopeta Engineering College. A News Letter is like a mirror reflects what is going on in the college.

The college always believes that the staff members are the greatest strength to the institution. It has been proved with Dr. Raju Kolluri, Professor, Department of ECE was given an award for his outstanding dedication and exemplary service as IEEE branch counsellor at IEEE Guntur zonal section Congress, UDGMA 2023. IBM skill build, faculty BUILDATHON Award was given to Dr. A.V. Nageswarao Assoc. Professor, Department of ECE.

The greatest achievement of this college is Department of Mechanical Engineering has completed NBA visit from 08-09-2023 to 10-09-2023 and got succeeded in achieving it. It is another feather in the cap of NEC. Thank you very much each and every one who works hard for achieving this success.

NEC always stresses the need of Students all-round development.

National Sports Day was conducted on 29-08-2023. Sri K.V. Mahesh DSP Narsaraopeta was the chief guest. Thank you everyone for making success of this event.

I congratulate the Editorial Board of this News Letter who have played wonderful role in accomplishing the task.

Vision

- 👁️ To emerge as a Centre of excellence in technical education with a blend of effective student centric teaching learning practices as well as research for the transformation of lives and community.

Mission

- 🎯 Provide the best class infrastructure to explore the field of engineering and research.
- 🎯 Build a passionate and a determined team of faculty with student centric teaching, imbibing experiential, innovative skills.
- 🎯 Imbibe lifelong learning skills, entrepreneurial skills and ethical values in students for addressing societal problems.

Department of Civil Engineering

You Dreamt it We Built it!

Vision

To be a center of excellence with state of art infrastructure and imbibe knowledge on advanced technologies in the field of Civil engineering with a focus on research and sustainable development for the benefit of society.

Mission

- Train the students as technologically motivated Civil engineers and researchers who can serve the society competently, collaboratively and ethically as planners, designers, constructors and operators.
- To provide quality based consultancy services to the communities for the development of civil engineering industry and other allied fields.
- To ignite innovative thinking, entrepreneur skills among students.

New Trends in Technology

Prefabrication

It is not just the off-site work which is experiencing changes and new ways of doing things. New technology and techniques are making their way to the construction site as well.

The scope of prefabrication has increased tremendously in the last decade. Especially with the time saved by using BIM during the conception and detailing phase of a project, the various stakeholders ideate over the material alternatives and scope of prefabrication in the project.

Machine Interventions - Reducing the 'workload'

The use of machines such as robots and exoskeletons is another emerging trend in civil engineering. Not only do they resolve mundane tasks with ease, but they also help increase safety and autonomy on-site during construction.

Exoskeletons are 'suits' worn by construction workers on site, to help and/or improve their mobility and workability. Using exoskeletons prevents injuries caused by manually handling things and from hand-arm vibration. Comparatively, Robots completely remove the need for the involvement of workers in certain tasks. Robots are helpful in automating highly repetitive tasks like brick-laying and tying rebar.

Student focus

IV, III, II Civil engineering students are actively participated in Painting & Essay writing competitions on 11-8-2023 conducted by NEC on the Event of Independence day.

IV,III,II Civil engineering students are actively participated in Ganesh idol model Preparation Program organized by NEC on the event of Ganesh Chaturdhi conducted on 15.9.2023

Civil Engineering Department organized Primavera Training for IV B.Tech students from 13th -25th November,2023.

IV, III, II Civil engineering students are actively participated in Smart India Hackathon 2023 on 21-09-2023 to 23-09-2023.

Industrial Visit

Civil Engineering Department managed a Industrial visit to Third B. Tech Civil Engineering Students to Srisailam project on 22-07- 2023.

2019-2023 Civil engineering Students attended Graduation day program on 30-09-2023.

Civil Engineering Department managed a industrial visit to II B. Tech Lateral entry Civil Engineering Students to Mittapalli Spinners Pvt. Limited on 06-11- 2023.

Ch.Pujitha (Regd No.19471A0111) achieved the highest academic standing and awarded with Gold medal

Alumni Voice

I feel fortunate to be a student of Narasaraopeta Engineering College as it helped me to both on personal and professional front. It inculcated a lot of intra and interpersonal skills which helped me in all round development. Teaching by the senior faculty and the field exposure in my college life has helped me a lot in securing a good job. Personal care towards me by the faculty members has helped me in qualifying the competitive exams at national level. I thank the management of the college for providing necessary materials and books in the library to face the competitive world.

P.Govardhan (19471A0144)
Graduate Engineer Trainee
Amar raja Infra Pvt.Limited, Hyderabad.

III year civil Engineering students actively Participated in 33rd National energy conservation day held on 14-12-2023

Student's Voice

I acknowledge that my knowledge has been enriched due to my association with our department. Knowledge transformation programs (Guest lecture, workshops, Industrial Visits & skill development programme) conducted to the students is really helpful to face global competition.

Important Activities held in the Department

Civil Engineering Department organized the Engineers day event on the occasion of Sir M.Viseswarayagarau on his birth Anniversary on 15.09.2023.

Vision

- To impart student Centric Education in the field of Electrical & Electronics Engineering to transform the individuals into competent Engineers with a focus on research and ethics.

Mission

- To provide knowledge-based technology and infrastructure to meet the needs of industry and Society.
- To assimilate innovation and research oriented culture to make successful professionals and entrepreneurs.
- To encourage lifelong learning with ethics among the students so as to make them as responsible individuals

MODERN TRENDS IN TECHNOLOGY

Thermoelectric generator (TEG)

It consists of alternating pairs of n-and p-type semiconductors chained together so that the voltage gained from the positive temperature differential in an n-type adds to the voltage gained from the negative temperature differential in a p-type. By connecting a TEG between a hot reservoir and a cold one, the heat differential is captured as electricity. With the ambient environment as a hot reservoir, we can use the coldness from deep space to create the cold reservoir. To do this, we send heat out to space using what we call an emitter, which cools itself to a lower temperature than its surroundings. That's a phenomenon known as radiative cooling. Then, a thermoelectric generator situated between the cold emitter and the now-hotter ambient surroundings can produce electricity. The emitter's job is to radiate the heat out beyond Earth's atmosphere. The most applicable atmospheric transmission band is in the 8- to 13-micrometer-wavelength range. Glass is a great material for an emitter. Its atomic vibrations couple strongly to radiation around the 10- μ m wavelength, forcing the material to emit much of its heat radiation within the transmission window.

Supercapacitors

The system application is extremely important when making a comparison between lithium-ion (Li-ion) batteries and supercapacitors. Batteries have 10 to 20 times higher energy density than supercapacitors, while supercapacitors have 10 to 50 times higher power density than batteries. The increased power density and significantly lower internal resistance makes supercapacitors ideal for the short-term, high-power pulses requested in Fast Frequency Response (FFR) applications. With the blue tank representing a battery system, the red bucket representing the supercapacitor system, the volume of water inside the tank/bucket representing the total energy available, and the instantaneous amount of water flow representing power capability. Both the blue tank and red bucket contain the volume and instantaneous water flow capable of extinguishing the fire, but the blue tank is over dimensioned, storing a significantly larger volume of water than necessary to extinguish this type of fire. The charge rate of supercapacitors is hundreds of times higher than typical Li-ion batteries. The discharge time of supercapacitors is on the order of seconds to minutes, compared to hours for most Li-ion batteries. Given that the cost per kilowatt increases with higher energy-to-power (E/P) ratios in an energy storage system, supercapacitors offer a significantly better option for an energy storage system with a low E/P ratio, as seen in inertia and FFR applications.

The typical estimated life of a Li-ion battery is about 5–10 years or 500–800 charge cycles, whichever occurs first, whereas supercapacitors can be charged and discharged thousands of times.

FACULTY FOCUS

Conferences Attended:

- Mr. Sk.Abdul Kalam has presented a paper entitled “An optimized model for enhancing power density of surface-mounted permanent magnet BLDC Motors” in the 1st National Conference on “Design–Thinking Trans-Disciplinary Challenges & Opportunities” Organized by Andhra University, Vizag on 7th and 8th July-2023 with the proceedings titled “NCDT-2023”[ISBN:978-93-5915-224-0].
- Dr.P.Lakshmanan has presented a paper on “Design and Implementation of Seven-Level Reduced Switch Count Multilevel Inverter for Electric Vehicles Applications” in Power Engineering and Intelligent Systems (PEIS – 2023) on 16-12-2023, vol: 1097, Springer, Singapore.

FDPS ATTENDED:

- Mr.M.ChandraSekhar attended& certified an UHV-FDP on “**Inculcating Universal Human Values in Technical Education**” during 12-06-23 to 16-06-23 organized by AICTE,NEW DELHI.
- Mr. Sk.AbdulKalam has successfully completed the 40-hour “**Research Methodology**” course organized at the Human Resource Development Center, Andhra University, from 14-06-2023 to 29-06-2023.
- Dr.Sk.Md.Shareef has participated in the “**Regional Meet**” held on 11-12-2023 at Institute of Aeronautical Engineering,Hyderabad.
- The following faculty members are participated & successfully completed AICTE Training & Learning Academy (ATAL) FDP on “**Certain Aspects of Electric Vehicles to achieve Sustainable Energy**” from 11-12-23 to 16-12-23 organized by VIGNAN'S LARA INSTITUTE OF TECHNOLOGY & SCIENCES.

1. Dr. SK.MD. Shareef,
2. Mr.P.D.V.S.K.Kishore,
3. Mr Sk. Abdul Kalam,
4. Mr M. Chandra Sekhar,
5. Mr G. Naveen,
6. Mr P. Naganjaneyulu

WORKSHOPS ATTENDED:

- Mr.Sk.AbdulKalam attended& certified a one weekWorkshop on “**Research Oriented Technical Writing (ROTW-2023)**” organized by Department of Electrical Engineering, NIT Jamshedpur, Jharkhand, Indigo during 04-07-2023 to 08-07-2023.
- Mr.P.Naganjaneyulu has participated in purse DST supported workshop on “**Future of Sustainability-Electric Vehicles & Smart Grid**” from 27-07-23 to 29-07-23 organized by Department of Electrical & Electronics Engineering, SRM Institute of Technology & Science, Tamilnadu.
- Dr.P.Lakshmanan has attended & certified a one day Workshop on “**NIRF RANKINGS-2024**” organized by Andhra Pradesh State Council of Higher Education atJagarlamudi Kuppuswamy Choudary College (JCC), Guntur on 30-11-2023.

Organized Programs:

PRACTICAL TRAINING PROGRAM

The department of EEE organized A Two Week Practical Training Programme on “SIMULATION OF POWER ELECTRONICS APPLICATIONS USING MATLAB” In Association with Power Integrated solutions, Trichy from 14-11-2023 to 26-11-2023.

The Principal Dr. M. Sreenivasa Kumar & HOD of EEE Dr. P. Lakshmanan addressed the students about the importance of Power Electronics Applications Using MATLAB in today's world.

CAREER ORIENTATION PROGRAM

The department of EEE organized A Career Guidance Program for III Year students on 27-11-2023.

Elwayte & Wipro in collaboration with NEC gave an orientation seminar on career after completion of B.Tech like GATE, IES and other Competitive Exams.

NATIONAL ENERGY CONSERVATION DAY

The Department of EEE, IQAC, IIC & ENERGY CLUB organized a program on the occasion of “33rd NATIONAL ENERGY CONSERVATION DAY” on 14-12-2023.

The Department of EEE invited as a Chief Guest Sri.Madan Mohan Koukuntla, Managing Director, HIEE, Hyderabad for this program.

On the occasion of “33rd NATIONAL ENERGY CONSERVATION DAY” poster Presentation was conducted on the theme “GO GREEN FOR OUR FUTURE”.

GUEST LECTURE

The Department of EEE organized a Guest Lecture on “EMERGING TRENDS IN ELECTRICAL ENGINEERING” by the Resource Person Sri.Madan Mohan Koukuntla, Managing Director, HIEE, Hyderabad on 14-12-2023.

MOU's :

MOU is exchanged between Elewayte, Bangalore and Narasaraopeta Engineering College on 28-11-2023 for 5 years.

MOU is exchanged between HIEE, Hyderabad and Narasaraopeta Engineering College on 14-12-2023 for 5 years.

The EEE Department has exchanged MOU with SRC e-solutions, Vijayawada on 15-12-2023 for 5 years.

STUDENT ACHIEVEMENTS: INDEPENDENCE DAY CELEBRATIONS

D.NAGANJALI (22475A0222), of III EEE has successfully performed Traditional Yoga on 15-08-2023, behalf of Independence Day Celebrations at college campus.

VINAYAKA IDOL COMPETITION

P.Narendra Reddy (21475A0213) & K.Hanumanthu (21475A0241) of IV EEE has won Third Prize in the event of Vinayaka Idol Competition organized by Narasaraopeta Engineering College on the occasion of Vinayaka Chaturthi held on 15-09-2023.

UDGAMA-2023

29 students of EEE department are attending ZONAL STUDENT CONGRESS UDGAMA'23 on Sustainable development goal for Clean and affordable energy on 29-09-2023 conducted by VVIT, Nambur, Guntur.

ANNUAL INTERCOLLEGIATE TOURNAMENT

D.NAGANJALI (22475A0222) of III EEE has won the First Prize in the event of YOGA held as a part of Annual Inter Collegiate Tournament organized by Jawaharlal Nehru Technological University, Kakinada on 22-11-2023

JNTUK CENTRAL ZONE INTER COLLEGIATE TOURNAMENT

N.PavanKumar (22475A0253) of III EEE has won the First Prize in the event of BADMINTON (M) in the JNTUK Central Zone Intercollegiate Tournament cum Selection held at Sir C.R.Reddy College of Engineering, Eluru from 25th & 26th November, 2023.

3rd STATE LEVEL YOGASANA CHAMPIONSHIPS- 2023

D.Naganjali(22475A0222), of III EEE has won the Second Prize in the events of TRADITIONAL YOGASANA & ARTISTIC YOGASANA SOLO of age category senior girls organized by YOGASANA SPORTS ASSOCIATION OF ANDHRA PRADESH (YSA AP) held at ACHARYA NAGARJUNA UNIVERSITY, NAMBUR, GUNTUR from 09-12-2023 to 11-12-2023.

JNTUK-USC-JNTU Kakinada Yoga Teams

D.NAGANJALI (22475A0222), of III EEE has selected to JNTU Kakinada Yoga teams, which will take part in the South West Zone Inter University Yoga tournament to be held at Anna University, Chennai from 01-12-2023 to 04-12-2023.

INDUSTRIAL VISITS:

As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure.

The IV B.Tech students are visited Hydro Power Plant located at Srisailam on 15-07-2023.

The III EEE A & B students visited 765/400 KV Substation Power Grid Corporation of India Ltd., Annavaram Village, Rompicharla Md, Narasaraopet on 17-08-2023 and 18-08-2023.

The II B.Tech students are visited Mittappalli Spinners Ltd., Narasaraopet on 07-11-2023.

TRAINING PROGRAMS ORGANIZED

TCS Azure & General Training Program is conducted for IV B.Tech EEE Students from 04-08-23 to 19-08-23 organized by Bytexpl team.

CRT – Training Program is conducted for III B.Tech EEE Students from 21-08-23 to 05-09-23 organized by Bytexpl team.

CRT – Training Program is conducted for II B.Tech EEE Students from 03-10-23 to 18-10-23 organized by Bytexpl team.

CRT – Training Program is conducted for III B.Tech EEE Students from 19-12-23 to 30-12-23

PLACEMENTS:

J.Premaraju (21475A0203), IV-EEE has selected in Coapps with a package of 4 LPA on 23-11-2023.

21 students of IV-EEE are placed in Thermopads Pvt. Ltd., Hyderabad with a package of 3LPA on 10-12-2023.

B.Bhargav Mahesh (20471A0202), IV-EEE has selected in Accenture with a package of 4.5 LPA on 14-12-2023.

ALUMNI VOICE:

It is an immense pleasure to say that I was a part of NEC. The facilities are really very kind & approachable when any need arises. Today, I am in good position it's because of what I have learnt from NEC. The Professors are dedicated experts & helpful in their respective subjects.

R. RAMYA
Trainee Engineer HCL
Batch: 2019-2023

Their experience help us to learn more about industrial relevance of the subjects. There are many co-curricular & extra-curricular activities conducted by the NEC. Finally I would like to thank the entire NEC family for providing such a wonderful educational platform for students from different corners of India.

STUDENT'S VOICE:

I am proud to be part of NEC, the college not only imparts knowledge but also instills life skills in us to make us responsible person. In this competitive and expensive era the objective of NEC imparting quality education of affordable cost in really praise worthy. Thanks to all my staff and NEC group.

DEPARTMENT OF MECHANICAL ENGINEERING

WE BUILD MACHINES THAT BUILD NATION

Vision

- To strive for making competent mechanical engineering Professionals to cater the real time needs of Industry and Research Organizations of high repute with entrepreneurial skills and ethical values.

Mission

- To train the students with state of art infrastructure to make them industry ready professionals and to promote them for higher studies and research.
- To employ committed faculty for developing competent mechanical engineering graduates to deal with complex problems.
- To support the students in developing professionalism and make them socially committed mechanical engineers with morals and ethical values.

MODERN TRENDS IN TECHNOLOGY: INDUSTRY 5.0

- Industry 5.0, also known as the Fifth Industrial Revolution, is a new and emerging phase of industrialisation that sees humans working alongside advanced technology and A.I.-powered robots to enhance workplace processes. This is coupled with a more human-centric focus as well as increased resilience and an improved focus on sustainability.
- Encompassing more than just manufacturing, this new phase builds upon the fourth industrial revolution (Industry 4.0) and is enabled by developments in I.T. that include facets such as artificial intelligence, automation, big data analytics, the Internet of Things (IoT), machine learning, robotics, smart systems, and virtualisation.
- Broadening the concepts of Industry 4.0, this new industrial revolution is described by the European Union as providing, “a vision of industry that aims beyond efficiency and productivity as the sole goals, and reinforces the role and the contribution of industry to society.”
- This is an important distinction from the approach of Industry 4.0, as described by the EU, since “it places the wellbeing of the worker at the centre of the production process and uses new technologies to provide prosperity beyond jobs and growth while respecting the production limits of the planet.”

Advantages

The main advantage of Industry 5.0 is the creation of higher value jobs that afford greater personalisation for customers and improved design freedom for workers. By allowing manufacturing processes to be handled through automation, human workers are able to focus more of their time on delivering improved, bespoke services and products.

This was already beginning with Industry 4.0, but Industry 5.0 pushes this further through improved automation and feedback to create a service-based model where humans are able to focus on adding value for end-users.

Meanwhile the increased focus on sustainability and resilience means that businesses become more agile and flexible while also having a positive impact on society – rather than simply mitigating any negative effects.

Disadvantages

It is difficult to see the disadvantages of Industry 5.0, but the challenge will lie in how organisations are able to adapt to embrace this new concept.

Those that are able to become more human-centric, resilient and sustainable will likely spearhead future solutions while those who fail to keep up will fall behind.

To understand this better, it is worth looking in more detail at the strategies of Industry 5.0 – namely a human-centric approach, improved resilience and a broader focus on sustainability.

- Dr.B.Venkata siva, HOD ME, Ch. Sekhar, Associate professor, and Dr.M. Venkanna babu, Associate professor attended Faculty Development program through online mode on “Introduction to Modelling and simulation”, organized by German varsity during 04/07/2023 to 05/07/2023.
- Dr.P.Suresh babu, Associate professor, attended Faculty Development program through online mode on “Advances in Materials and Manufacturing Technologies”, organized by Kallam Haranadhareddy Institute Of Technology, Guntur during 26/06/2023 to 30/06/2023.
- Dr.B.Venkata Siva, HOD ME professor, Dr.D.Jagadish professor, Dr.M.Venkanna Babu Associate professor T.Ashok kumar, Assistant professor, and Mr.K.John Babu, Assistant professor are attended Faculty Development program through online mode on “Data Analytics with Cognos”, organized by Virtual Buildathon 2023 | IBM X SmartInternz, during 24/07/2023 to 04/08/2023.

- Dr.B.Venkatasiva, HOD ME acted as a Manuscript Peer Reviewer title “Microstructure characterization and hardening evaluation of ferrite/martensitic steels induced by He2+ irradiation”, Journal Materials (ISSN 1996-1944) Type Manuscript ID materials-230257

- Dr.M.Sreenivasa Kumar, Principal NEC and Dr.Venkannababu Mendi, Associate Professor, are attended a high-impact industry institute interaction event “ICT Academy Bridge’23” organized by ICT academy on 20/12/2023 at marigold green park Hyderabad.

FACULTY CERTIFICATIONS:

- Dr.B.Venkata Siva, Professor HOD-ME received Academic Excellence Award for outstanding performance in Mechatronics Subject on Teachers day.
- Dr.P.Suresh babu, Associate Professor received Academic Excellence Award for outstanding performance in Industrial Engineering and Management Subject on teachers day.
- Dr.M.Venkanna babu, Associate Professor received Academic Excellence Award for outstanding performance in Design of machine elements-I Subject on teachers day.
- D.Raghavendra Assistant Professor received Academic Excellence Award for outstanding performance in Design of machine elements-2 Subject on teachers day.
- K.Kiran chand, Associate Professor received Academic Excellence Award for outstanding performance in Metrology Subject on teachers day.
- T.Ashok kumar, Assistant Professor received Academic Excellence Award for outstanding performance in Kinematics of machinery Subject on teachers day.
- Dr.B.Venkatasiva, HOD ME acted as a Manuscript Peer Reviewer title “Advances in Machine Learning Techniques used in Fatigue Life Prediction of Welded Structures”, Journal: Applied Sciences - ISSN 2076-3417 Publisher : MDPI.

Dr.M.Sreenivasa kumar, Principal NEC attended a five days faculty development program on “AI Tools for Educators in line with OBE” in association with All India Council for Technical Education Training And Learning Academy organized by Bapatla Engineering College from 20/11/2023 to 25/11/2023.

Dr.B.Venkatasiva, Professor, HOD ME attended a one day workshop “India Rankings-2024 National Institutional Ranking Framework (NIRF) QUALITY ASSURANCE CELL ANDHRA PRADESH STATE COUNCIL OF HIGHER EDUCATION (A Statutory Body of the Government of A.P.) In collaboration with Jagarlamudi Kuppuswamy Choudary College (A), Guntur 30/11/2023.

Dr.B.Venkatasiva, Professor, HOD ME completed NPTEL certification on “Accreditation and outcome based learning”, with 78% during Aug-Oct 2023.

CH.Sekhar, Associate Professor, completed NPTEL certification on “Accreditation and outcome based learning”, with 78% during Aug-Oct 2023.

K.John babu, Assistant Professor, completed NPTEL certification on “Cloud Computing”, with 60% during July-Oct 2023.

M.Venkaih, Assistant Professor, completed NPTEL certification on “Cloud Computing”, with 55% during July-Oct 2023.

K.Kiran chand, Assistant professor completed NPTEL certification on “Engineering Metrology”, with 64% during July-Oct 2023.

Dr.P.Suresh babu, Associate professor completed NPTEL certification on “Introduction to internet of things”, with 85% during July-Oct 2023.

DEPARTMENT ACTIVITIES:

Mechanical staff and students are participated in One day Webinar on “Digital transformation design and manufacturing”, in Association Auto desk APSSDC-ARC on 27/06/2023 .

Mechanical Engineering department staff and students are participated in “District Level Yuva Utsav – 2023”, organized in our college premises as a part of NSS activity on 05/07/2023.

Department has organized a CSP project review for third and final year students on 01/07/2023, Dr.B.VenkataSiva, Professor HOD-ME, Dr.D.Jagadish, Professor Professor, .M.Venkaiah Assistant Professor, and K. Kiran chand, Assistant Professor, are acted as Reviewers.

Department has organized a One week FDP on “Introduction To Fusion 360 - Generative Design, PCB Design and Cam”, in Association with Design Labs, Hyderabad - Autodesk. from 22/07/2023 to 27/07/2023.

Department has organized “A one week workshop on Product Design & Drafting CATIA”, for third year students from 14/08/2023 to 19/08/2023. Ms. K.Prasanna Lakshmi, Trainer and Ms.G.Sumohana, Trainer acted as Resource persons.

Dr.B.Venkata siva, HOD ME, K.John babu Associate Professor and final year students attended ASME Workshop on 05/08/2023.

Department has organized “World Entrepreneurs Day 2023”, And also done the Inauguration & Poster Release of our Printing Startup Company “CLO-NOFUSION” in Association with The IQAC & Dept. of Mechanical on 21/08/2023. The Event is Inaugurated by Chief guest of Mr.V.R.Bose Nallapati, Director, Ezimart Retail and Technologies Pvt. Ltd

Department has organized Guest Lecture on “Insight On Certifications & Career Growth On NDT”, for final year students from 22/08/2023. Mr. Vidya Sagar,Vidal NDT, Hyderabad acted as Resource person.

Department participated and successfully completed Academic Audit 2022- 2023.

Mechanical Engineering department attended in BOS meeting for R23 regulation syllabus on 20/09/2023.

Mechanical Engineering department students and staff participated in Graduation day program on 30/09/2023. Students below mentioned in the table took medals in Graduation day.

Department has organized Two days workshop on “Simulation Of Basic Aerodynamics for RC Plane Design”, for third and final year students from 06/10/2023 to 07/10/2023. Dr.Yagya Dutta Dwivedi, Associate professor & Deputy Head I A R E Institute Of Aeronatical Engineering, Hyderabad Telangana acted as Resource person.

ALUMNI VOICE:

Finding the right path to success at the right time is really very important and for that way I had selected NEC. The friendly environment, the systematic approach towards imparting education at NEC made me a competent individual. The wide range of activities- both curricular and co-curricular- along and the support from NEC is really very helpful for my future. The faculties are really very kind and approachable when any need arises. In NEC we are trained for our placements and because of that I was placed in one of the reputed companies for my internship. Today, if I am in a good position it's because of what I have learnt from NEC. Lastly I am really proud to be an NEC Alumni.

Coming to NEC Mechanical Engineering Department, I consider it as a temple and the Professors over here as my god. Each of the Faculty members helped me with my ups and downs and shaped me into a better, responsible and successful person. Since my admittance, three years ago, I have been evolved into a confident lady, bolstered with many new skills.

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

“Attitude Amplified, Faults Rectified”

Vision

To emerge as a center of excellence in Electronics and Communication Engineering through student-centric education and research focus to cater to the current and future needs of society

Mission

M1: To provide the best infrastructure for empowering the students with quality education to motivate them towards higher studies and research.

M2: To provide qualified and experienced faculty for student-centric teaching in order to mould the students as successful professionals in the modern Electronics industry.

M3: To inculcate leadership qualities, professional etiquette, ethical values, and social responsibilities.

Modern Trends in Technology

Nanoelectronics

With around USD 15+ Billion market size in 2023 and expected to reach USD 20+ Billion by 2030, audio electronics provide an immersive listening experience and better sound quality to users.

Nanoelectronics involves designing, fabricating, and developing electronic devices at the nanoscale in terms of nanometers (e.g. 1nm to 100nm).

Designing and developing smaller electronics will produce high performance and less noise, that's why every two years, the electronic chip becomes smaller, more compact, and produces high-speed processors like AI or Intel's processor. Currently, giant companies like Intel and Qualcomm working on around 10nm technology and are expected to reach 2nm by 2028. It's unbelievable, right?

Technologies like AI and ML are helping nanoelectronic tech to develop secure and highly efficient chips for the next generation.

In the future, nanoelectronic technology will become more advanced and produce new future career opportunities, especially in the semiconductor industry.

Medical Electronics

With around USD 750+ Billion market size in 2023 and expected to reach USD 1.5+ Trillion by 2030, medical electronics make the world healthy and safer.

Electronics plays a very important role here. Medical electronics help people to diagnose and treat diseases using accurate and high-tech equipment and devices.

Medical electronics include devices such as glucometers, heart rate monitors, digital thermometers, ECG, EEG, and EMG sensor devices, etc. All of the devices should be accurate, and efficient when used.

New technologies such as AI, ML, and IoT help the medical industry to develop highly efficient electronic products and devices that are used to detect diseases, cancer, and viruses and provide better solutions against them.

Doctors can check the patient's problems such as blood pressure and diabetes in real-time through IoT technology from anywhere and anytime.

In the future, medical electronics will provide efficient and accurate care to people. And find new solutions and treatments for diseases

Faculty Focus

- IBM SkillsBuild, Faculty buildathon Award Received by Dr. A.V.Nageswara Rao on 28/10/23

- One Week Course on “Python” was completed by the Faculty: Dr.B. Suneetha, Course was organized by GUVI, Google for education Partner.

- Awarded the Certificate of achievement for the successfully completion of One Week (07/08/2023 to 12/08/2023) Course on “Chatgpt for Everyone” was completed by the Faculty: Mrs.P. Vinuthna.

- Dr.Y.Jayapal Reddy, Mr.P.BhagyaRaju, Mrs.G.Rajavali awarded “Academic Excellence Award” on the occasion of Teacher’s Day-2023 Celebrations organized by Narasaraopeta Engineering College (Autonomous),AP.
- Dr. RajuKolluri awarded “Outstanding Dedication and Exemplary Service as a IEEE branch counselor at IEEE Guntur Zonal Section Congress, UDGAMA 2023” Certificate of Appreciation award on 29/9/2023 organized by VasireddyVenkaredri Institute of Technology, Guntur, India.

FDPs attended by our Faculty Members

- Dr.B.Suneetha, Mrs. T. Indira, Mrs. SK. AreefaBegam, Mrs.P. Vinuthna, attended One week FDP on “MIMO Antennas for 5G Communications” from 26/07/2023 to 30/7/2023 organized by Department of ECE and IETE Chapter, KallamHaranadhareddy Institute of Technology, Guntur.
- Mr. D.Suneel, Mrs.P.Vinuthna attended A webinar on “Migrating to the visit Software Development IDE” was attended by the faculty on 22/7/2023 organized by Sandeepani School of embedded System Design, Bangalore.
- Mrs. P.Vinuthna attended A webinar on “Static Timing Analysis(STA) for Beginners” on 28/7/2023 organized by Sandeepani School of embedded System Design, Bangalore.
- Dr. Veeravalli Venkata Rao, Dr. EbraheemKhaleelulla attended One Week National Level Faculty Development Program on “Cloud Infrastructure (AWS)” from 21/08/2023 to 25/08/2023 organized by Narasaraopeta Engineering College (Autonomous),AP in collaboration with Brainovision Solutions India Pvt Ltd and AICTE.
- Mrs.T.Indira, Mr. A. RavindraBabu attended One week workshop on “VLSI to System Design: Silicon to End Application Approach” from 31/07/2023 to 04/08/2023 organized by AICTE, Arm Education and St Microelectronics.
- Mr. Gujjula. RamanaReddy attended A webinar on “Unlocking the Potential of Wide Band gap Semiconductors for Extreme Environments” on 19/8/2023 organized by department of ECE, VRSEC
- Dr. Veeravalli Venkata Rao, Dr. A.V. Nageswara Rao, Dr. B.Suneetha, Mr. A. RavindraBabu, Mr. V. Naveen Raja, Mr. G. Ramana Reddy, Mr. A. Ramesh attended A one Week National Level Faculty Development Program on “Recent Advances in Electronics and Communication Engineering-An Approach through AI & ML” from 21/08/2023 to 26/08/2023 organized by Vignan’sNirula Institute of Technology and Science For Women, Guntur, AP.
- Dr.K.Raju attended One Day Workshop on “Leading The Way: Navigating the Engineering Trends of AI & Electrification in Engineering Education” on 15/09/2023 organized by JNTUK in Association with Mathworks and Capricot on 15/09/2023 at Alumni Auditorium, JNTU Kakinada.
- Mrs. P. Vinuthna has attended a Webinar on “Getting Started with the Versal Adaptive SoC Platform” held from 18/10/23 by Sandeepani school of embedded system design, Bangalore.
- Mr. B. Babu Rao attended a Five days International Online Workshop on “Smart Antennas - The design perspective using CST Studio Suite Software” From 09/10/23 to 13/10/23 Organized by the department of ECE, S.A. Engineering College
- Mr. P. JAYA BABU has attended a Three Day National Level FDP on “Emerging Trends in VLSI Device, Circuit & System Design- A Practical Approach” held during 9-11-23 to 11-11-23, at RVR & JC College Of Engineering.
- Mrs. G. RAJAVALI has attended a Webinar on “NEP 2020: NATIONAL HIGHER EDUCATION QUALIFICATION FRAMEWORK” Organized on 17-11-23, by Association of Indian Management Schools(AIMS)
- Dr. A. V. NageswaraRao has attended a Three Day Workshop on “CURRICULUM” Organized by Efftronics Systems PVT.LTD. From 17-11-23 to 19-11-23.
- Mr. G. Ramana Reddy has attended a Five Day Workshop on “Recent Developments in Neural Networks and Embedded RTOS ” held during 9-10-23 to 13-10-23.

- A Guest Lecture given on “Global Satellite Navigation Systems”, by Dr. V. Venkata Rao at KHIT, Guntur on 20-11-2023.

- Dr. V. Venkata Rao attending ATAL FDP on “Novel Materials, Devices and Applications” at V R Siddhartha Engineering College, Vijayawada, during 11-12-2023 to 16-12-2023.

Events Organized by Department

Name of the Program	Resource person with Affiliation Details	Dates	participants
A seminar on "Study in Abroad"	Mr. Mahesh Pappu, CEO, UniAway	06/07/2023	180
Tree Days workshop on "Industrial Internet of things"	Mr.P.Madhu, Make Skilled Innovations Park, Hyderabad	17/07/2023 to 19/07/2023	120
On the eve of "Engineer's day" - 1. Power Point Presentation, 2. Technical Quiz events	Mr. BandiBhaskar, Sub-Divisional Engineer, Broad Band BSNL, Guntur	15/09/2023	Paper Presentation: 15 Batches - poster Presentation: 5 Batches
Guest Lecture on "Face the Global Competition: Higher Education & Job Opportunities"	Mr. Royadas (Roy) Marthana, Senior Vice President, JP Morgan Chase, USA	27/09/2023	(190)

Research Centre Inspection was successfully completed in ECE Department on 15-11-23.

A "International Standard Organization (ISO) mock visit by Mr. Singayyagaru and Dr. Lakshman Kumaron 01/12/2023, in ECE Department, Narasaraopeta Engineering College (Autonomous), AP.

DEPARTMENT ACTIVITIES

PPT Presentation on the occasion of "Woman In Engineering day" on 10/07/2023 and organized by Department of ECE under IEEE WIE Society Chapter.

A One week workshop on "Innovative Problem Flow Design Using DIA Tool", was conducted for 1st B-tech- ECE students, during 11-12-23 to 16-12-23, Organized by IQAC & ECE in Association with IEEE, IETE & ISTE

A seminar on "Health and Hygiene" was conducted on 17/08/2023.

A "International Standard Organization (ISO)" external visit by Mr. K. Kutumbarao, ISO Expert from Hyderabad, in ECE Department was successfully completed on 12-12-23.

"Happy ness program" was conducted on 01/09/2023 to ECE Faculty of Narasaraopeta Engineering College (Autonomous), AP.

STUDENT FOCUS TRAINING PROGRAMS ORGANIZED

"Teacher's Day Celebrations" Was conducted on 05/09/2023 and organized by the department of ECE, Narasaraopeta Engineering College (Autonomous), AP.

CRT "Tata Consultancy Services(TCS) Registration" program for IV/I ECE Students on 06/07/2023.

On the eve "Engineer's Day Celebrations", "Paper presentation and poster presentation competition" was conducted on 15/09/2023, Resource Person: Mr. BandiBhaskar, Sub-Divisional Engineer, Broad Band BSNL, Guntur and the program was organized by the Department of ECE, Narasaraopeta Engineering College (Autonomous) in Association with IETE Students Forum (ISF).

Interaction program on "Benefits of Python software" was conducted to IV/I ECE-A Students on 08/07/2023, by Alumni Mr. Kurrayaswanth-Sairam (18471A04E9), Company: Eitacies, Role: Python intern., Location: Hitec city Hyderabad.

"IEEE membership drive" conducted for II/I-ECE and EEE students on 21-09-2023, organized by the Department of ECE

Interaction program on "Internet of Things" was conducted to IV/I ECE-D Students on 08/07/2023, by Alumni Ms. Susmitha Poliseti (18471A04A6), Working in Deloitte as an Analyst in Hyderabad.

IV ECE Students and Faculty members attended the Chandrayan-3 Launch in the Department Seminar Hall on 14/07/2023.

Interaction program on "Microwave Products" was conducted to IV/I ECE-C Students on 15/07/2023. by Alumni Mr. Panchumarthi Dileep Kumar (17471A0482), Company: Astra Microwave Products Limited, Hyderabad, Role: Testing Engineer.

Interaction program on "Internet of Things" was conducted to III/I ECE-D Students on 15/07/2023. by Alumni Mr. Yerramsetty Sai Pavan (17471A04A6), Company: Accenture, Bangalore, Role: Engineering Analyst.

Interaction program on "Importance of Aerospace related Jobs" was conducted to IV/I ECE - A Students on 22/07/2023. by Alumni Mr. D. V. Bharghav Narayana (15471A04H5), Organization: Collins Aerospace, Bangalore, Role: Team Leader.

TCS Specific Training (for both Azure and general batch students) was conducted from 04/08/2023 to 05/08/2023 to IV/I ECE Students

"The Brain Teaser & Pick 'N' Speak events" organized by department of ECE, IEEE NEC Student Branch on 12-08-2023.

ECE students Mr. F.Manikanta (20471A0412), Mr. P. Praveen (20471A0440), Mr. P. Venkateswarlu (20471A04G1) and Mr. U. Harikrishna (20471A0455) got " Top Red Hat team award" on 13/10/2023 in "IBM Skills Build Hack Challenge-2023", Bangalore.

ECE Students 1. Ms. P. KavyaSree (22471A04M9) got First Prize and 2. Mr. SK. Shabbeer (22471A0451) got Second Prize in "Photography Competition" on the occasion of "World Photography Day-2023" was celebrated on 14/10/2023 and organized by models & Prototype Club members, NEC.

A national level inter-engineering collegiate tournament, was organised at gudlavalleru engineering college during 18-20-nov-2023, k. Maheswari, student osnarasaraopetaEngineering College, got 3rd Place in Discus Throw (Women)

K. MAHESWARI, Student of Narasaraopeta Engineering College ECE department, got 2nd Place in Shotgun, at VIVA VVIT-2023-2024.

Ch.Venkata Prasad, S.Dhanush Student of Narasaraopeta Engineering College ECE department, winners in Badminton, at Sir C.R. Reddy College of Engineering, Eluru organized by JNTUK Central Zone Intercollegiate Tournament.

ALUMINI VOICE

I am great to be a student of NEC. The environment in our college is amazing. I had opportunity to meet minds and fine tune my interpersonal and professional skills. My message to current students of NEC is to attend classes and training programs provided by college which is useful in building confidence and shaping career. I would like to take opportunity to say thanks to all members of NEC.

STUDENT VOICE

Our department is a perfect environment for students to pursue their passion effortlessly. Every student future is envisioned here. Now a days all Engineering colleges are working like a factory which are mass producing robots killing students dreams and handing out degrees. To change this our college is striving hard. In this regard they encouraged me to go for University Innovation Fellowship at Stanford University where students from different colleges around the world are selected and given special training to bring change in eco system. I am glad being a part of this program. I am proud to be NECian.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Innovation is our tradition

Vision

- To become a centre of excellence in nurturing the quality computer science & engineering professionals embedded with software knowledge, aptitude for research and ethical values to cater to the needs of industry and society.

Mission

The department of computer science and engineering is committed to

- M1: Mould the students to become software Professionals, researchers and entrepreneurs by providing advanced laboratories.
- M2: Impart high quality professional training to get expertise in modern software tools and technologies to cater to the real time requirements of the industry.
- M3: Inculcate team work and lifelong learning among students with a sense of societal and ethical responsibilities.

Modern Trends in Technology

EDGE COMPUTING:

Introduction: Computation takes place at the edge of a device's network, which is known as edge computing. That means a computer is connected with the network of the device, which processes the data and sends the data to the cloud in real-time. That computer is known as "edge computer" or "edge node".

Edge computing, a pivotal technology trend, which brings computing power closer to the data source, is expected to become increasingly important as the volume of data generated by connected devices continues to grow. In simple words, Edge computing refers to the use of computing resources and data processing capabilities at or near the "edge" of a network, rather than in a centralized location, such as a data center.

How to Work: Instead of delivering data to a central server, edge computing processes it at the network's edge. This makes it ideal for applications like self-driving cars and smart cities because it can result in quicker processing times and less network congestion.

For example, in the Tesla self-driving car, the sensor constantly monitors certain regions around the car. If it detects an obstacle or pedestrian on its way, then the car must be stopped or move around without hitting. When an obstacle is on its way, the data sent through the sensor must be processed quickly and help the car to detect before it hits. A little delay in detection could be a major issue. To overcome such challenges, edge computing and fog computing are introduced.

Example of Edge computing:

- Autonomous vehicle edge computing devices collect data from cameras and sensors on the vehicle, process it, and make decisions in milliseconds, such as self-parking cars.
- In order to accurately assess a patient's condition and foresee treatments, data is processed from a variety of edge devices connected to sensors and monitors.

Advantages:

- It offers high speed, reduced latency better reliability which allows for quicker data processing and content delivery.
- It offers better security by distributing processing, storage, and applications across a wide range of devices and data centers, which makes it difficult for any single disruption to take down the network.

- It offers a far less expensive route to scalability and versatility, allowing companies to expand their computing capacity through a combination of IoT devices and edge data centers.
- Since the data is processed locally, less time and resources are needed for data to be transmitted among the millions of connected devices.

FACULTY FOCUS

A Publications / Conferences / FDP:

- Dr.S.V.N.Sreenivasu Computer Science and Engineering, Narasaraopeta Engineering has participated in the FDP on "Research Funding Opportunities" by Dr.Shivaprasad, Scientist-R & D Infrastructure Division, Department of Science Technology (DST), New Delhi, India held on 23rd June, 2023 organized by the Department of Physics, SRM TRP Engineering, College, Tiruchirappalli, Tamilnadu, India.
- Dr.K.Lakshminadh (Professor) of Narasaraopeta Engineering College Guntur, AP for his instrumental role as SPOC for the SWAYAM-NPTEL Local Chapter.
- Dodda Venkat Reddy (Assistant Professor) for successfully completing the 6 credit course MCO-03: Research Methodology and Statistical Analysis with a consolidated score of 58% marks in the proctored examination held on 26-02-2023 offered by Prof Subodh Kesharwani of Indira Gandhi National Open University, New Delhi.
- S.Anusha (Assistant Professor) has successfully achieved the certification Microsoft Certified: Azure Fundamentals.
- Dr.M.Sireesha (Asso.Prof), S.Anusha (Asst.Prof), M.Mounika Naga Bhavani (Asst.Prof), P.Srinivasarao (Asst.Prof), participated in 5 Day's Online International Faculty Development Program on Data Analyst organized by APSSDC in Collaboration with ExcelR from 19/06/23 to 23/06/23.
- Certificate of Participation Presented to Mr.K.V.Narasimha Reddy (Asst. Prof), Mr.M.Sathyam Reddy (Asst. Prof) of Narasaraopeta Engineering College for Successful completion of 6-day Online Faculty Development Program on "Machine Learning- in Practise" held from 19/06/23 to 24/06/23.
- Dr.S.N.Thirumala Rao from Narasaraopeta Engineering College has attended one-week online FDP on "Machine Learning", organized by Department of Artificial Intelligence & Data Science, Computer Engineering, Dr.D Y Patil Institute of Engineering and Management Research, Akurdi from 10/07/2023 to 14/07/2023
- K.V.Narasimhareddy (Asst.Prof), D.Venkatareddy (Asst.Prof), S. Chaitanya Bharathi (Asst.Prof), M.Mounika Naga Bhavani (Asst. Prof) from Narasaraopeta Engineering College has attended one-week online FDP on "Machine Learning", organized by Department of Artificial Intelligence & Data Science, Computer Engineering, Dr.D Y Patil Institute of Engineering and Management Research, Akurdi from 10/07/2023 to 14/07/2023.
- Dr.Sireesha Moturi from Narasaraopeta Engineering College has Presented the Paper titled Prediction of liver disease using Machine Learning Algorithms authored by Sireesha Moturi, Jhansi Vazram Bolla, M.Anusha, M.Mounika, Naga Bhavani, Srikanth Vemuru, S.N.Tirumala Rao in the 4th International Conference on Data Science and Applications (ICDSA 2023) held during July 14-15, 2023 in India.

- Dr.Sireesha Moturi from Narasaraopeta Engineering College has Presented the Paper titled Machine Learning Models for Chronic Renal Disease Prediction authored by Sai Kumar Mamidala, Sireesha Moturi, S.N.Tirumala Rao,,Jhansi Vazram Bolla, K.V.Narasimha Reddy in the 4th International Conference on Data Science and Applications(ICDSA 2023) held during July 14-15,2023 in India.
- Dr.Sireesha Moturi from Narasaraopeta Engineering College has got CERTIFICATE OF ATTENDANCE from Builders Online Series at AWS on 13 July 2023.
- Dr. S V N Sreenivasu, Professor, Computer Science & Engineering of Narasaraopeta Engineering College for attending One Week FDP on “Platforms & System Security in Cyber Space” from 30th Jan to 4th Feb, 2023 Organized by Department of CSE (Data Science, Cyber Security and Artificial Intelligence & Data Science) in collaboration with Department of CSE (AI&ML and IoT), VNR Vignana Jyothi Institute of Engineering and Technology.
- Dr. S V N Sreenivasu, Professor, Computer Science & Engineering of Narasaraopeta Engineering College has participated in the Faculty Development Programme on “Research Funding Opportunities “ by Dr. Shivaprasad, Scientist – R & D Infrastructure Division, Department of Science and Technology (DST), New Delhi, India held on 23rd June, 2023 organized by the Department of Physics,SRM TRP Engineering College, Tiruchirappalli, Tamilnadu, India.
- Mounika Naga Bhavani has successfully satisfied the requirements for: Getting Started with Enterprise Data Science and Journey to Cloud: Envisioning Your Solution in IBM.
- EXCELR Raising Excellence CERTIFICATE OF PARTICIPATION AWARDED TO Shaik Rafi, Syed Rizwana, Yamani Chandana, G Saranya, M Sathyam Reddy, M suneetha, M Mounika Naga Bhavani, Chaitanya Bharathi Sripathi, T G Ramnadh Babu, Seva Anusha, Participated in 30 Hours International Faculty Development Program on Deep Learning for NLP and Computer Vision organized by Chaitanya Bharathi Institute of Technology (CBIT) in Collabaoration with ExcelR From 10th July to 28th July 2023.
- Mounika Meduri is awarded to COURSE COMPLETION CERTIFICATE for successfully completing the course Introduction to HTML on August 3, 2023 from Infosys Springboard.
- Mounika Meduri and Saranya Gaddam are awarded to COURSE COMPLETION CERTIFICATE for successfully completing the course Basics of Python on August 8, 2023 from Infosys Springboard.
- Marella Venkata Rao is awarded to CERTIFICATE OF ACHIEVEMENT for successfully completing Python Foundation Certificate on August 8, 2023 from Infosys Springboard.
- Saranya Gaddam is awarded to CERTIFICATE OF ACHIEVEMENT for successfully completing Python Foundation Certificate on August 9, 2023 from Infosys Springboard.
- Chaitanya Bharathi is awarded to COURSE COMPLETION CERTIFICATE for successfully completing the course Basics of Python on August 10, 2023 from Infosys Springboard.
- K.V.Narasimhareddy, MSuneetha, Chaitanya Bharathi, M.Mounika Naga Bhavani from Narasaraopeta Engineering College has got CERTIFICATION of PARTICIPATION for attended a one-week online FDP on “Innovative Teaching Methodology-A creative Pedagogy”, organized by Department of Artificial Intelligence & Data Science, Robotics and Automation, D Y Patil College of Engineering, Akurdi. In association with ISTE and IQAC DYP COE Akurdi, Pune from 31/07/2023 to 04/08/2023.
- Chaitanya Bharathi Sripathi, Kandi Venkata Narasimhareddy, M. Mounika Naga Bhavani, Saranya of Narasaraopeta Engineering College has participated in a Three Day Online Faculty Development Program on “Data Science and Its Applications” organized by the Department of Cyber Security and Data Science, during 7th - 9th August, 2023 in Bapatla Engineering College, Department of Cyber Security and Data Science.
- K.V.Narasimha Reddy, Assist.Professor, has presented the paper BrainTumer Detection using CNN with paper code 526 in 1st International Conference on Emerging Technologies in Engineering and Science(ICETES-2023) organized by DVR& Dr. HS MIC College of Technology (AUTONOMOUS) kanchikacherla, Andhra Pradesh, India during 11th to 12th August 2023, got Participate Certificate and Authorship Certificate.
- Saranya, Dr. Sireesha Moturi, M Mounika Naga Bhavani, M Sathyam Reddy, T G Ramnadh Babu, M Suneetha were Participated in 5 Days Online International Faculty Development Program on NLP and ChatGPT APPLICATIONS organized by SECAB Institute of Engineering & Technology in Collaboration with ExcelR Edtech Pvt. Ltd. on 14th Aug to 19th Aug 2023 and got participation certificates.
- Mr. K. V. Narasimha Reddy, Asst. ALUMINI VOICE:

As an alumnus of Narasaraopeta Engineering College, I am incredibly proud of the education and experiences I gained during my time there. The college has a dedicated faculty that is committed to providing quality education and fostering a supportive learning environment. The campus infrastructure is well-equipped with modern facilities, including labs and libraries, which greatly enhance the learning process. One of the standout aspects of the college is its focus on practical learning through various projects, workshops, and industry interactions. This not only helped me gain a strong theoretical foundation but also allowed me to apply my knowledge to real-world scenarios. The college also encourages extracurricular activities, providing opportunities to participate in events and competitions. These experiences helped me develop important skills beyond academics and build a well-rounded personality. While my time at Narasaraopeta Engineering College was enriching, like any institution, there were occasional challenges. However, the overall support system provided by the faculty and administration helped me overcome these challenges and grow both personally and professionally. In conclusion, Narasaraopeta Engineering College holds a special place in my heart as it played a pivotal role in shaping my career and personal growth. I am grateful for the education and memories I gained there, and I would highly recommend it to aspiring students seeking a solid educational foundation and a nurturing environment to thrive in.

STUDENT VOICE:

Narasaraopeta Engineering college stands as a symbol of academic excellence and innovation. The college offers a diverse range of engineering courses. I am very happy to be a part of this institute. Its contemporary infrastructure includes well-equipped laboratories, e-class rooms. NEC ensures that students are well-prepared to face the challenges in professional life by providing training to the students using the ByteXI tools and CodeMind coding platform. NEC focuses on practical learning rather than theoretical learning by conducting various type of workshops, hackathons and other events frequently. It is one of the best place to study.

Vision

To emerge as a Centre of excellence in technical education with a blend of effective student centric teaching learning practices as well as research for the transformation of lives and community

Mission

Provide the best class infrastructure to explore the field of engineering and research.

Build a passionate and a determined team of faculty with student centric teaching, imbibing experiential and innovative skills.

Imbibe lifelong learning skills, entrepreneurial skills and ethical values in students for addressing societal problems.

NEW TRENDS IN TECHNOLOGY:

Computing Power:

Computing power has already established its place in the digital era, with almost every device and appliance being computerized. And it's here for even more as data science experts have predicted that the computing infrastructure we are building right now will only evolve for the better in the coming years. At the same time, we have 5G already; gear up for an era of 6G with more power in our hands and devices surrounding us. Even better, computing power is generating more tech jobs in the industry but would require specialized qualifications for candidates to acquire. From data science to robotics and IT management, this field will power the largest percentage of employment in every country. The more computing our devices will need, the more technicians, IT teams, relationship managers, and the customer care economy will flourish.

One essential branch under this field that you can learn today is RPA, i.e. Robotic Process Automation. At Simplilearn, RPA is all about computing and automation software that can train you for a high-paying role in the IT industry. Here are the top jobs you can target after RPA:

1. Data Scientist
2. AI Engineer
3. Robotics Researcher
4. AI Architect
5. Robotics Designer

Elevate your expertise in the digital age through our cutting-edge Cyber security Boot camp. Stay two steps ahead of cyber threats as you immerse yourself in hands-on training, mastering the latest defines strategies and ethical hacking techniques. Join us to become the guardian that every digital realm needs.

ALUMNI VOICE:

The infrastructure of a college plays a vital role in the development of the college as the students are now focusing on the labs, classrooms, etc while selecting a college. It is important that the colleges have very good infrastructure with advanced laboratories equipped with state of the art equipment etc. Only then the students can get hands on experience with the latest technologies. Computing resources are one of the important and mandatory needs of a college.

STUDENT VOICE:

Narasaraopeta Engineering College is one of the prestigious and renowned institute in this region. It is a privilege to be the part of this institution. I like the faculty and I feel I had the best environment for my studies I learned many new things from my teachers who were very helpful in every way they could. The teacher-student interaction was great. The teachers were very friendly because of which I could clarify many of my doubts. High quality teaching, assessments and management of learning, regular and reliable feedback on student progress and achievements.

Vision

• To nurture skilled professionals in the Data Science for industry innovation and create meaningful societal impact through advanced analytics, machine learning, and impactful data-driven solutions.

Mission

- To develop skilled data scientists who can effectively solve challenges in data analytics through comprehensive education and practical training in statistical analysis, machine learning, data visualization, and data manipulation.
- To develop students with strong research capabilities who can revolutionize multiple fields through the application of data science.
- To develop ethical data science professionals who utilize data for the welfare of society.

NANOCOATINGS FOR WATER PROOF SMARTPHONES

Nanocoating is a process by which a thin layer of thickness about less than 100 nm is deposited on the substrate by several techniques for improving some property of the base material like wear resistance, abrasion resistance, hardness and making it water repellent. Nano coatings can be made by several techniques like sol-gel, dip coating, Chemical Vapour Deposition and Spin coating. Then nano-coating on the base surface can create hydrophobic (water repellent) and oleophobic (oil repellent). Even super hydrophobic coatings can be made. Some plant leaves, such as the lotus leaf and insect wings are hydrophobic. Thus we can imagine water rolling off our mobile phones without getting into it. Water proof mobile phones are available in the market.

FLEXIBLE ELECTRONICS THROUGH NANOTECHNOLOGY

Nanomaterials are playing a vital role in the development of flexible electronics. Flexible electronics is possible through manipulation of matter at nanoscale. CNT polymer composites based electronics, CNT based flexible supercapacitors are nanomaterials of importance in electronic industry. Graphene is proving to be a dominant material in flexible electronics. Other materials cannot match the combination of its high electrical conductivity, flexibility, and good physical strength. Flexible electronic devices have already made their way into the commercial realm, and the coming years are bound to see huge velocity of technological changes.

FACULTY FOCUS

Dr.K.Ponnari Lakshmi, Professor, H.O.D. B.S&H participated and presented a paper titled "Teaching and Learning English through Artificial Intelligence" in ELT SUMMIT-2023 International Virtual Conference for teachers of English held on 1st & 2nd December organized by International Society Educational leadership & MIT Art, design and Technology University Pune.

Dr.K.Ponnari Lakshmi, Professor, H.O.D. B.S&H and Mr.Z.Mohan Rao Assoc. professor of English have Published a paper in Journal of propulsion Technology (a Scopus indexed journal) with the title "Role- Play: An Interactive Activity to Enhance the English-Speaking Skills of Undergraduate Students."

Dr.K.Ponnari Lakshmi, Professor, H.O.D. B.S&H acted as a BOS member for English, in Tirumala Engineering College, Narasaraopet.

Dr. V. Aruna, Associate Professor of English received Doctor of Philosophy on 5th September on Negotiating Womanly perceptions in the select novels of Anita Nair. A study, from Vignana Deemed to be University, Vadlamudi, Guntur.

Dr. SK. Rafi, Asst. Professor of English was awarded Ph.D. from Acharya Nagarjuna University, Guntur, in October on "Thematic Study in Garish Karnad's selected plays".

Dr. V. Aruna, Associate Professor Participated in Internal Virtual Conference on ELT in Globalized World-Scope, perspectives and challenges organized by SCK Govt Degree College, Vinukonda.

Dr.V.Aruna, Associate Professor of English presented a paper titled "Sustainable Career development through Employability in English Language" in ELT SUMMIT 2023, International Virtual Conference for Teachers OF English held on 1st & 2nd December 2023 organized by the International Society for Educational Leadership & MIT Art, Design and Technology University Pune.

Dr.V.Aruna, Associate Professor of English got Registered as a social scientist from ICSSR, Delhi with the Registration No. ICSSD-SM-2023-2922.

Mr. G.R.K.Murthy, Asst.Professor of English participated in Two day International Webinar on "Impact of Literature in Cultural and Societal Development" organized by the Department of languages and IQAC, SS&N College, Narasaraopet during 19th and 20th July.

Mr. S. Riyaz Basha Asst.Prof. of English has participated in Two-day International webinar on Impact of Literature in Cultural and Societal Development" during 19th & 20th July organized by the Department of languages and IQAC SS&N College, Narasaraopet.

Dr.R.Mohana Ramana published a paper on "Chemical Radiation and Soret Effects on Unsteady MHD Convective Flow of Jeffrey Nanofluid Past an inclined semi-Infinite Vertical Permeable Moving Plate" in the Journal "Communications in Mathematics & Applications, 2023.

Dr. Sk. Mohiddin Shaw Professor of Mathematics, Dr.R.Mohana Ramana, Asst.Professor, Dr.G.Dharmaiah, Assoc.Professor Dr. Ch.Maheswari, Asst.Professor have presented a paper titled "Characteristics of Magnetic Permeable Radiative Hybrid Nanofluid Enhancement with Exponential Space-Based Heat Source/Sink and Diffusion Thermo Effect" in 1st IEEE International Conference on Multidisciplinary Research in Technology and Management-MRITM23, Organized by New Horizon College of Engineering Bengaluru on 22nd & 23rd September 2023.

Dr. Sk. Mohiddin Shaw Professor of Mathematics delivered a lecture on "Fuzzy Dimension of a Module over Associative Ring R" in an International Conference on "Computational Modeling in Science and Engineering & 32nd Congress of APSTSMS" organized by NIT Warangal from : 28th - 30th October 2023.

Dr.Sk. Mohiddin Shaw, Professor & Dr.N. Ravi Babu, Assoc. Professor participated in a five-day International Faculty Development Program on "Application of Mathematics in Various Fields with Innovative Approaches" organized by Bapatla College of Engineering From: 21-11- 2023 to 25-11-2023 through virtual mode.

Dr.G.Dharmaiah has presented a paper Simulation of Lattaneo-Christov's Heat Flow Past a ring Plate using the BVP4C Approach in the "National Seminar on Recent Advances in the Mathematical and Statistical Methods for Science and Technology" on 22nd December 2023 organized by Department of Mathematics & Humanities, R.V.R & J.C College of Engineering, Guntur.

Dr.Ch.Maheswari, Asst.Professor of Mathematics has participated in the Five Day Interdisciplinary Online Faculty Development Programme (FDP) on Institutional Initiatives for Effective Assessment and Accreditation in the context of NEP-2020 organized by SS&N College, Narasaraopet.

Dr.Ch.Maheswari, Asst.Professor of Mathematics delivered a guest Lecture in Krishnaveni Engineering College for Women on 15th November 2023.

Mathematics Day Celebrated on 22nd December 2023. Poster Presentation Computation is Conducted on the occasion of Mathematics day by the department of B.S&H.

Dr.P.N.V.V.L.Prameela Rani, Assistant Professor of Chemistry has participated in the webinar on "Fifth Generation (5G) Wireless-Communication Technology Role of Advanced Ceramics" organized by Department of Physics, School of Science and Humanities, S.R. University, Warangal, on 3rd October 2023.

Dr.P.N.V.V.L. Prameela Rani, Assistant Professor of Chemistry has participated in National Workshop on "Hands-on Training Using In-Silico Tools for Chemical/Biological

Applications organized by the Department of Chemistry of Vignana University, Guntur.

Dr.Y.Lakshmana Kumar has participated in Two Weeks faculty Development Programme on Entrepreneurship from 3-8-2023 to 17-8-2023 organized by the Institutes Innovation Council, Golgotha's University, Uttar Pradesh.

BS&H Faculty Members Dr.K. Ponnari Lakshmi, Dr.K. Neeraja, Dr. Ch.Maheswari, Dr. V.Aruna, Mr.S.Srinivasarao, Mrs.A.Aparna, Ms.Sd.Roshini Bhanu, Mr.G.R.K.Murthy, Mr.M.Purna Chandra Rao, have successfully completed NPTEL Certificate Courses with a very good percentage.

DEPARTMENT OF MBA

Manager - He, who do things right

Vision

To provide world class learning experience in the field of management and develop leadership capabilities to withstand global challenge thus make MBA distinctive, Research oriented and professional programme that is equipped to build on the twin pillars of theory and practice.

Mission

To impart and nurture managerial and entrepreneurial skills in the students

To create a competitive environment for student to upgrade their knowledge and sharpen the skills

To encourage the faculty and students to undertake research and consultancy assignments promoting self-employment through entrepreneurship

New Trend in Business

Business analytics refers to the skills, technologies, practices for continuous iterative exploration and investigation of past business performance to gain insight and drive business planning. Business analytics focuses on developing new insights and understanding of business performance based on data and statistical methods

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Technology is teaching us to be human again

Vision

- To prepare MCA Department as a generator of world class Software Professionals / Entrepreneurs.

Mission

- Import the knowledge of modern s/w tools to meet the challenges in current day competition.
- Imparting employability skills instudents.
- Encourage research activities among students and staff.

New Trends in Technology

BIG DATA

The world generates over 59 trillion GB of data per day, including 306.4 billion emails! Where is all this data stored? How is all this data recorded so quickly? That's what Big Data tries to solve - how to capture and process tons of data to make it easily and quickly accessible. Big data intersects a lot with cloud computing because they both relate to behind the scenes software infrastructure.

ROBOTICS

Although robots aren't walking and talking with normal people like they do in science fiction movies, robotics still play an important role in our everyday lives. Hospitals use robotic arms to assist surgeons in surgery. Food and packages are starting to be delivered by drones. Factories use robots to assemble the products we use everyday like phones and cars. In fact, 2.7 million robots work in factories across the world. Future advancements to robotics is to integrate computer vision and natural language processing to enable them to interact with the world more naturally.

DISTRIBUTED CLOUD

Distributed cloud is the distribution of public cloud services to different physical locations, while the operation, governance, updates and evolution of the services are the responsibility of the originating public cloud provider.

BLOCKCHAIN

A blockchain is a distributed database that is shared among the nodes of a computer network. As a database, a blockchain stores information electronically in digital format. Blockchains are best known for their crucial role in cryptocurrency systems, such as Bitcoin, for maintaining a secure and decentralized record of transactions. The innovation with a blockchain is that it guarantees the fidelity and security of a record of data and generates trust without the need for a trusted third party.

ARTIFICIAL INTELLIGENCE

Artificial intelligence (AI) refers to the simulation of human intelligence in machines that are programmed to think like humans and mimic their actions. The term may also be applied to any machine that exhibits traits associated with a human mind such as learning and problem-solving.

VIRTUAL REALITY

Virtual Reality (VR) is a computer-generated environment with scenes and objects that appear to be real, making the user feel they are immersed in their surroundings. This environment is perceived through a device known as a Virtual Reality headset or helmet.

SERVERLESS COMPUTING

Serverless computing is an execution model for the cloud in which a cloud provider dynamically allocates—and then charges the user for—only the compute resources and storage needed to execute a particular piece of code. Naturally, there are still servers involved, but their provisioning and maintenance are entirely taken care of by the provider.

5G NETWORKS

5G is the 5th generation mobile network. It is a new global wireless standard after 1G, 2G, 3G, and 4G networks. 5G enables a new kind of network that is designed to connect virtually everyone and everything together including machines, objects, and devices.

5G wireless technology is meant to deliver higher multi-Gbps peak data speeds, ultralow latency, more reliability, massive network capacity, increased availability, and a more uniform user experience to more users.

COMPUTER VISION

These fields give computers the ability to see and listen. Computer vision is the technology behind enabling computers to see the world. It is the crucial technology behind self-driving cars, facial recognition, and Snap chat / Zoom filters. The technology has become so advanced that it is even more accurate than humans in identifying images!

NATURAL LANGUAGE PROCESSING

Natural Language Processing (NLP) is how computers are able to recognize what humans say. NLP is found in voice enabled smart devices like Apple's Siri and Amazon's Alexa. These fields overlap with Artificial Intelligence and Machine Learning because computers use the same AI/ML algorithms to process inputs, whether it is visual or audio.

BIOINFORMATICS / MEDICAL TECHNOLOGY

Just like other aspects of our lives, computers are revolutionizing medicine. Bioinformatics is the use of computers to study biological data such as DNA. By analysing DNA with AI / ML techniques, computers can assist scientists in uncovering the root causes of diseases developing cures, including this recent potential cure for certain cancers here. Other computer science trends intersect with medicine. For example, using robots for surgery is becoming more widespread.

CYBERSECURITY

In the past, information was secured from robbers by metal vaults and security guards. Today, digital information is secured from hackers by cyber security. As more of our lives is online, the more important cyber security becomes. There's a successful computer hack every 39 seconds! There are many sub-fields within cyber security. For example, cryptography finds new algorithms to encrypt sensitive information, or make it such that information cannot be read unless the reader knows a password. Another example is network security - ensuring computer networks or cloud networks are only accessible by the correct users and applications.

ALUMINI VOICE

Finding the right path to success at the right time is really very important and for that way I had selected NEC. The friendly environment, the systematic approach towards imparting education at NEC made me a competent individual. The faculties are really very kind and approachable when any need arises. In NEC, we are trained for our placements and because of that I was placed in one of the reputed companies for my internship.
